

BWS316 Y TPN, robust 3-pole work switch

Main switch

Title	Article No.
ON_OFF SWITCH_BWS316 Y TPN	84310930

Electrical equipment or machinery must be disconnected from the electrical supply during maintenance or repairs. In order to avoid unintentional or unauthorized start-ups, switch-disconnectors should be fitted to the supply circuits for machinery:

- › which can be started from different places.
- › which can be started automatically.
- › which cannot be seen from the place where it is started.

The enclosed disconnecter must not be used for starting and stopping or as an emergency stop device.

Technical data:			
Type	3-pole	2-pole	
	BWS316 Y TPN	BW225 DP	
Max motor power, kW	7,5		
Operating voltage, V	400	230	400
Rated current: Ie AC23A Ie AC22A	16 25	16 25	16 25
Enclosure	Robust thermoplastic (PBT)		
Cable entries	Metric threaded knock-outs. Membrane glands/sealing plugs (IP 54) are included. When IP 65 degree of protection is required compression glands must be used.		
Lockable	Yes		
Degree of protection	IP 65		
Neutral and PE terminal	Included		
Auxiliary contact	Included (1 NO)	Not included	
Enclosure	Light grey		
Handle and cover	Red, yellow
